Comments about [channel ORANGE](#) - Frank Ocean

• Perdana

Got two copies of the third pressing on clear vinyl. Both skipped a few times on Lost. Also a super irritating high pitched squeaking throughout the Intro. Love the album, don't recommend this pressing.

• Conjulahala

The squeaking in the into is supposed to be there.

• Trex

Was their ever an official release, or is it just bootlegs

• Endieyab

it looks here only bootlegs. It's like def jam or frank just don't want money ;-) Wondering if they even chase these bootleggers, it's pretty easy to find out...

- **Whitestone**

Based on the mixed reviews found here, i decided to take a gamble and try my luck. While the saying, "The house always wins" doesn't always hold true, i should've stayed away. The pressing is horrendous, some parts sounding more like a radio transmission (one or two dials away from the frequency) rather than a hi-fidelity medium. This is one of the rare occasions where we should stick to the digital format. Let's hope for a pressing in the future that does this album justice, official or otherwise.

- **roternow**

Does that black vinyl still Have a little bit of a marbled gray to it at all? I think I might have been sent the wrong copy

- **Purestone**

I love vinyl, but this bootlegs are so awful, its unbelievable. Flat, no depth, cracking when you hear them load. I bought the CD and heard a different release. Really. Its hard to understand, why people pay so much for this crappy bootlegs. Please do yourself a favor this time and buy the CD. I hate to say it, but its true.

- **Adoraris**

Didn't know it was a Bootleg when I ordered it. The sleeve looks and feels a bit low quality but the record itself is of great quality and sounds awesome! AMAZING album and definitely worth having it on vinyl.

- **Malanim**

any ideas how many copies of this were pressed up? you cant order it anymore, and i think the label was quick to stop sales so it was pulled pretty fast from stores & distros...

- **Alianyau**

Great bootleg. I listen to this album 2 times a day.

- **Mr_TrOlOlO**

what color is your bootleg?

- **Wenes**

AWESOME VINYL! Love how it sounds, super quality!!!! A++

- **HappyLove**

what color is your bootleg?

- **Vudomuro**

great quality vinyl, sounds amazing. I enjoyed the sleeve and artwork, simple but effective!

- **Brialelis**

what color is your bootleg?

- **Jusari**

I didn't know that this was unofficial when I ordered this.. Sleeve is poor quality. And if I look the

vinyls at a good light there is some "pits" on the records. So there's few crack sounds :/14euros for this. I'd rather would pay 6euros more to get better press. But this is better than no vinyl at all.

- **ĀH_Ÿōūrš**

Good bootleg. The album sounds like it should.

- **Maveri**

True that to cadiamond--it's been too long for the official release. This one must hold us over.

- **Yla**

Sounds good - and I am not sure that the "official" release is on track anymore: it has been months.

- **Abuseyourdna**

This is a bootleg. Official release forthcoming - avoid this one.
